1. PRODUCT AND COMPANY INFORMATION

Company : BASF Building Systems
889 Valley Park Drive
Shakopee, MN 55379

Telephone : 952-496-6000
Emergency telephone number : (800) 424-9300
(703) 527-3887 (Outside Continental US)

Product name : KURE-N-SEAL
MSDS ID No. : 10995

TSCA Inventory : All components of this product are included, or are exempt from inclusion, in the EPA Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

Canadian DSL : All components of this product are included, or are exempt from inclusion, in the Canadian Domestic Substance List (DSL).

Product Use Description : Coating

WHMIS Class : B3

Primary Routes of Entry : Skin contact
Inhalation

Effects of Overexposure

Inhalation : Inhalation of high vapor concentrations may cause symptoms like headache, dizziness, tiredness, nausea and vomiting. Inhalation of high vapor concentrations can cause CNS-depression and narcosis. Prolonged inhalation can be harmful.

Skin : Prolonged skin contact may defat the skin and produce dermatitis. Prolonged or repeated exposure can cause skin irritation and redness.

Eyes : Can cause slight irritation.

Ingestion : Can cause slight irritation.

Chronic exposure : This product contains solvents. Reports associate repeated and prolonged occupational
overexposure to solvents with permanent brain and nervous system damage. Reports also indicate that solvents cause liver damage, kidney damage, and mucous membrane irritation. Be warned that intentional misuse by deliberately inhaling the vapors and/or the product contents (a process often called "sniffing") can be harmful or fatal.

### 4. FIRST AID MEASURES

**Eye contact**: Flush eyes with water, lifting upper and lower lids occasionally for 15 minutes. Seek medical attention.

**Skin contact**: Remove contaminated clothing. Wash thoroughly with soap and water. If irritation persists seek medical attention. Wash contaminated clothing before reuse.

**Ingestion**: Do not induce vomiting without medical advice. If conscious, drink plenty of water. If a person feels unwell or symptoms of skin irritation appear, consult a physician. If a person vomits, place him/her in the recovery position. Never give anything by mouth to an unconscious person.

**Inhalation**: Remove victim from exposure. If difficulty with breathing, administer oxygen. If breathing has stopped administer artificial respiration, preferably mouth-to-mouth. Seek immediate medical attention.

### 5. FIRE-FIGHTING MEASURES

**Flash point**: 108.00 °F (42.22 °C)

**Autoignition temperature**: no data available

**Lower explosion limit**: 0.9 % (V)

**Upper explosion limit**: 7 % (V)

**Suitable extinguishing media**: water fog
carbon dioxide (CO2)
dry chemical

**Fire and Explosion Hazards**: Combustible Liquid. Can form explosive mixtures at temperatures at or above the flashpoint. Vapors can travel to a source of ignition and flash back. Empty containers retain product residue (liquid and/or vapor) and can be dangerous. DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND, OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY, OR OTHER SOURCES OF IGNITION; CONTAINERS MAY EXPLODE AND CAUSE INJURY OR DEATH. DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND, OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY, OR OTHER SOURCES OF IGNITION; CONTAINERS MAY EXPLODE AND CAUSE INJURY OR DEATH. Solid stream of water or foam can cause frothing.

**Special Fire-fighting Procedures**: At higher temperature pressure build up in sealed containers. Use water to cool containers exposed to fire. As in any fire, wear self-contained breathing apparatus pressure-demand (MSHA/NIOH approved or equivalent) and full protective gear.
6. ACCIDENTAL RELEASE MEASURES

Methods for cleaning up: Ventilate the area and remove all sources of ignition. Evacuate unnecessary personnel. Take action to eliminate source of leak. Large spills should be handled carefully. Put on respiratory protection and necessary personal protective equipment. Dike or impound spilled Liquid. Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

7. HANDLING AND STORAGE

Handling: Use only in area provided with appropriate ventilation. Keep out of reach of children. Take precautionary measures against static discharges. Ground and bound containers when transferring material. For personal protection see section 8.

Storage: Keep containers tightly closed in a dry, cool and well-ventilated place.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Eye protection: Wear as appropriate: safety glasses with side-shields goggles face-shield

Hand protection: Wear Chemically resistant gloves.

Body Protection: Wear as appropriate: Chemically resistant clothes preventive skin protection

Respiratory protection: In case of insufficient ventilation wear suitable respiratory equipment. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Hygienic Practices: Avoid contact with skin, eyes and clothing. Ensure adequate ventilation, especially in confined areas. Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke. Handle in accordance with good industrial hygiene and safety practice.

Engineering Controls: Local exhaust ventilation can be necessary to control any air contaminants to within their TLVs during the use of this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Color: white

Physical State: liquid

Odor: mild solvent

pH (at 100 %): no data available

Odor Threshold: no data available

Vapor Pressure: no data available
Vapor Density : Heavier than air
Boiling point/range : 307.99 - 340.00 °F (153.33 - 171.11 °C)
Freeze Point : no data available
Water solubility : negligible
Specific Gravity : 1.004
Viscosity : no data available
Evaporation rate : Slower than Butyl acetate
Partition coefficient (n-octanol/water) : no data available
VOC Concentration as applied (less water and exempt solvents) : 311 g/l

10. STABILITY AND REACTIVITY

Stability : Stable under recommended storage conditions.
Conditions to avoid : Heat, flames and sparks. Prolonged exposure to high temperatures
Materials to avoid : oxidizing agents
Hazardous decomposition products : Oxides of carbon
Hazardous polymerization : Will not occur under normal conditions.

12. ECOLOGICAL INFORMATION

Ecotoxicological Information : There is no data available for this product.

13. DISPOSAL CONSIDERATIONS

Recommendations: Use excess product in an alternate beneficial application. Handle disposal of waste material in manner which complies with local, state, province and federal regulation.

14. TRANSPORT INFORMATION

DOT : Proper shipping name Not regulated
IATA : Proper shipping name FLAMMABLE LIQUIDS, N.O.S. (SOLVENT NAPHTHA (PETROLEUM), LIGHT AROMATIC; 1,2,4 TRIMETHYL BENZENE)
UN-No 1993
Class 3
Packaging group III
Primary Label Flammable liquid

15. REGULATORY INFORMATION

SARA 311/312 (RTK)
This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendments and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:
IMMEDIATE (ACUTE) HEALTH HAZARD DELAYED (CHRONIC) HEALTH HAZARD FIRE HAZARD

SARA 313
This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:

<table>
<thead>
<tr>
<th>Weight %</th>
<th>CAS No.</th>
<th>Chemical Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.00 - 5.00 %</td>
<td>95-63-6</td>
<td>1,2,4 TRIMETHYL BENZENE</td>
</tr>
</tbody>
</table>
CERCLA
CERCLA section 103(a) specifically requires the person in charge of a vessel or facility to report immediately to the National Response Center (NRC) a release of a hazardous substance whose amount equals or exceeds the assigned RQ. The following hazardous substances are contained in this product.

<table>
<thead>
<tr>
<th>RQ</th>
<th>CAS No.</th>
<th>Chemical Name</th>
</tr>
</thead>
</table>

No CERCLA chemicals exist in this product above reportable concentrations.

TSCA Section 12(b) Export Notification
This product contains the following chemical substances subject to the reporting requirements of TSCA 12(b) if exported from the United States:

<table>
<thead>
<tr>
<th>CAS No.</th>
<th>Chemical Name</th>
</tr>
</thead>
</table>

There are no TSCA 12(b) Chemicals in this product.

California Proposition 65
The chemical(s) noted below and contained in this product, are known to the state of California to cause cancer, birth defects or other reproductive harm. Unless otherwise specified in Section 2 of this MSDS, these chemicals are present at < 0.1%:

<table>
<thead>
<tr>
<th>CAS No.</th>
<th>Chemical Name</th>
</tr>
</thead>
</table>

16. OTHER INFORMATION

Legend : N.E. - Not Established
         TLV - Threshold Limit Value
         STEL - Short Term Exposure Limit
         PEL - Permissible Exposure Limit
         CEIL - Ceiling
